

Gemma Pons MD, PhD is a board-certified plastic surgeon from Barcelona, Spain. Currently, she is Head of the Microsurgery Unit of the Department of Plastic and Reconstructive Surgery at Hospital de Sant Pau in Barcelona, and Associate Professor of the Department of Surgery at Universitat Autònoma de Barcelona.

She was graduated from Hospital Clinic medical school at Universitat de Barcelona and she undertook her Plastic Surgery training in Hospital de Sant Pau in Barcelona. She completed abroad her training in microsurgery: Plastic Surgery Department Universitair Ziekenhuis Gent, Belgium (Prof. P. Blondeel), East Cooper Medical Center, Charleston, US (Dr. R.J. Allen) and The University Tokyo Hospital, Japan (Prof. I. Koshima). Later, she received her PhD degree in lymphatic super-microsurgery from the Universitat Autònoma de Barcelona.

As an accomplished clinician, her expertise focuses on reconstructive and aesthetic breast surgery, lymphedema surgery and super-microsurgery.

She is author and co-author of multiple articles and book chapters and presents her work internationally. She is member of several scientific associations and she was awarded the EURAPS Best Paper 2022. She is actively involved in basic and clinical research projects, and teaching both at undergraduate and post-graduate level, being part of the educational board of the *Reconstructive Microsurgery European School*.
